

NSP STAND 360°

ADJUSTABLE FOR POS MACHINES

The need for an ergonomic base that **secures** the POS terminal and allows its **easy use** by both the employee and the customer, becomes imperative.

The new ergonomic base from **NSP** is a highly efficient solution for fastening the POS terminal to **protect the user from data theft or breach**.

It is quickly installed using **3M type of adhesive tape** or can be **permanently installed on any surface through holes and screws**, and support **most of the POS terminals**.

The cables run **through the support unit**, leaving the work surface free. It is made of **high-strength materials** and includes **DuraTilt technology**.
